

Expanded Health and Safety Advisory: Fresh Baked, LLC

May 18, 2022 - The Colorado Department of Revenue's Marijuana Enforcement Division (MED), in conjunction with the Colorado Department of Public Health and Environment (CDPHE) is issuing an expanded health and safety advisory due to the additional identification of potentially unsafe levels of Total Yeast and Mold contamination in Retail Marijuana flower (bud/shake/trim) produced by **Fresh Baked, LLC**.

Through our investigation, the MED has identified harvest batches of Retail Marijuana flower (bud/shake/trim) that were untested or not tested properly dating back to July 14, 2021, which have been found to contain levels of microbial contaminants above the acceptable limits established in [Colorado Marijuana Rule 4-115](#). As a result, the CDPHE and MED are expanding the [Health and Safety Advisory issued on April 20, 2022](#) to include all Retail Marijuana produced by this licensee before February 25, 2022 to be a potential threat to public health and safety.

Consumers who have these affected products in their possession should return them to the Retail Marijuana Store where they were purchased for proper disposal. While only marijuana produced on and after July 14, 2021 was still available for testing as part of this investigation, out of an abundance of caution it is recommended that consumers return any products still in their possession from the below Retail Marijuana Cultivation Facility. Consumers who experience adverse health effects from consuming the product should seek medical attention immediately, report the event to the store from which they purchased the product and report the event to the MED by submitting an [MED Reporting Form](#).

All affected marijuana should have a label affixed to the container that, at a minimum, indicates the license number of the Retail Marijuana Business that cultivated the marijuana. Consumers should check the label of their Retail Marijuana flower (bud/shake/trim) for the following license number:

Retail Marijuana Cultivation Facility License: 403R-00250
