

Health and Safety Advisory: Innovative Fusion LLC (doing business as DRIP)

December 14, 2021 – The Colorado Department of Revenue (DOR), in conjunction with the Colorado Department of Public Health and Environment (CDPHE), is issuing a health and safety advisory due to the identification of potentially unsafe Medical and Retail Marijuana Product and Concentrate produced by **Innovative Fusion LLC (doing business as DRIP)**.

Through our investigation, the DOR has identified batches of Medical and Retail Marijuana that were untested, not tested properly, and in certain cases, were confirmed to contain levels of contaminants above the acceptable limits established in Colorado Marijuana Rule 4-115 and/or potency and homogeneity outside acceptable limits established in 4-125. As a result, the CDPHE and DOR deem **all batches** of Medical and Retail Marijuana produced by this licensee to be a potential threat to public health and safety. These contaminated or untested batches were sold to consumers prior to December 10, 2021.

Consumers who experience adverse health effects from consuming the product should seek medical attention immediately and report the event to the store from which they purchased the product.

Consumers who have Marijuana Concentrate or Marijuana Products produced by the licenses listed below should return them to the Medical or Retail Marijuana Store from which they were purchased for proper disposal.

All affected marijuana has a label affixed to the container that, at a minimum, indicates the license number of the Medical or Retail Marijuana Business that manufactured the Marijuana Product or Concentrate. Consumers should check the label of their Medical or Retail Marijuana Product and Concentrate for the following license numbers:

Medical Marijuana Products Manufacturer License: 404-00615

Retail Marijuana Products Manufacturer License: 404R-00338

Retail Marijuana Products Manufacturer License: 404R-00355
