

SB 205 Task Force Meeting 1 Agenda and Materials

July 13, 2022

Agenda

1. Introductions, objectives, agenda
2. Background, purpose, and importance of this task force
3. Process for task force and subcommittee meetings
4. Exercise 1: Subcommittee topics
5. Exercise 2: Determine participants for each subcommittee
6. Public comment
7. Next Steps

Meeting Preparation

Task Force members are not expected to bring prepared materials to this initial meeting, but as you can see in our agenda, we will be discussing topics for subcommittee study, evaluation, and presentation, so the Departments encourage all Task Force members to consider which specific areas of industrial hemp, industrial hemp products, and intoxicating hemp products regulation may warrant closer examination.

Public Materials Folder

Future meetings may require more extensive preparation, which will be discussed and communicated following each meeting. Any materials that Task Force members are expected to review prior to future meetings will be distributed via email and available publicly in the [SB 205 Task Force Public Materials Folder](#). Task Force members may also use this folder to save relevant research, information, and other materials for access by all members and the public.
